NEW WORKS AT SOUTHBRIDGE, MASS., U. S. A., ERECTED 1917

INTRODUCTION

ESTABLISHED in 1875, we have manufactured cutting tools for over forty years. Our aim during this time has been "QUALITY," and the reputation enjoyed by HYDE products is proof of our success.

We take pride in feeling "HYDE QUALITY" has been in a class by itself, and assure our patrons it shall ever be our aim to maintain the same for the future.

We show in catalog only styles usually carried in stock, but also make a great variety of special shapes for nearly every line of the cutting trade on which we are always pleased to quote prices.

Thanking our trade for the many past favors, we solicit a continuance of pleasant relations.

HYDE MANUFACTURING CO.

WARRANT

Cutlery of our make is guaranteed to be satisfactory for the work intended. We will replace defective goods at all times not found as represented by us.

I.P.HYDE

We have registered our Hyde Diamond Trade Mark and I. P. Hyde mark in the U. S. Patent Office, and caution all persons against using or any infringement thereof.

We manufacture all products listed in this catalog. All goods f. o. b. Southbridge.

SECURE PACKING AND PROMPT DELIVERY.

Electrotypes used in this catalog furnished free to dealers.

DESCRIPTION OF BRANDS

Hyde Diamond Brands

THE Hyde Diamond Brand represents our best efforts, both in quality and workmanship. Blades of this brand are stamped with the name "I. P. Hyde" inside a Diamond, as per cut on opposite page. Each Blade is enclosed in a paper sheath or envelope, as shown on page 10 of catalog, and the shank is fastened in the handle by a Round Head Rivet. Handles are usually of Hard Wood and friction Burnt Finish, with closed-end nickel-plated Ferrules.

Knives are packed One Dozen, in Red Leatherette Paper Boxes, and neatly sealed by a Paper Band.

I. P. Hyde Brand

This brand of Shoe Knives has been made by us for years to meet a demand for medium price goods. Knife Blades of this stamp take plain wood handles, with steel ferrules, and are packed in green paper boxes.

The third cut, on page 10, illustrates this brand.

Extension Blades for Leather Cutting

We have always maintained an Extension Blade requires the most exacting temper of any edge tool. Each Blade is hardened separately to obtain an evenness in temper not otherwise possible.

All Extension Blades are stamped "I. P. HYDE" and put up one dozen in a package.

Guard Blade made in one size only
